COMPANY DESCRIPTION

YOUR DRIVE, REDEFINED

TrueVue focuses on prioritizing safety on the road by providing a solution that turns distraction into focus through smart, connected technology. 91% of teens have reported engaging in distracted driving behaviors such as phone usage.

By transforming phone distraction that poses multiple safety hazards on the road into a high-quality dash camera using a phone mount. This design makes your phone less accessible while also capturing high-quality footage of your surroundings that is also synced to an app that provides navigation and safety insights to alert drivers on the road. This results in drivers staying more alert and promoting more attentive driving on the road.

YOUR DRIVE, REDEFINED

Our mission is to prioritize safety on the road by providing a solution that turns distraction into focus through smart, connected technology.

TRUEVUE GOALS

- Consumer peace of mind
- Avoided use of phones when driving
- Ensuring safety on the road

TrueVue is a company that provides a built-in mount with a built-in dash camera that which is also synced to cloud storage the safety insights

At TrueVue, we want to make safer road driving. Through our technology, we provide positive impact on drivers' experience.

Your Drive, Redefined

How does our TrueVue RoadLock work?

- Secure your phone in the RoadLock box – phone from a distraction to a safety feature
- RoadLock restricts access to your phone, so you can focus on the road
- It also turns your phone into a high-quality dashcam in case of an accident
- RoadLock also stores dashcam footage, so you can review it later

The Result

TrueVue RoadLock redefines how we use our phones while driving. It transforms distraction into safety, giving drivers confidence every time they hit the road. By turning your phone into a dashcam, TrueVue makes safety a reality – creating a future where every drive is safe.

FAMILY SOFTWARE BUNDLE

BECAUSE FAMILY SAFETY COMES FIRST.

The TrueVue Family Bundle includes 3 RoadLocks, 3 rear cameras, and 18 months of app and cloud storage for each device. Smart RoadLock cases reduce phone distraction with emergency access, while front-and-rear recording, safety alerts, and AI driving feedback keep everyone safer. One simple system built for worry-free family driving.

OUR MISSION

To create safety on the road by empowering families with easy-to-use tools that reduce distraction and reinforce mindful driving. We give young parents peace of mind and help them build confidence behind the wheel. By providing intuitive technology and actionable insights, we foster responsible driving habits and minimize risk. Our mission is to protect lives, every journey as care-free and safe as possible.

ABOUT US

Founded in 2025 in Tustin, CA, TrueVue is a safety-focused technology company that empowers families to drive safer and give parents peace of mind. We empower drivers—especially teens—to navigate the road confidently and securely while helping families feel protected. TrueVue combines innovation, technology, and safety insights to transform everyday driving into a more aware and accident-conscious experience. Our goal is to reduce distractions, prevent accidents, and create a culture of safer driving for everyone. Every drive should be as safe as possible, and that's what we do.
